Optifarm Announces Strategic Collaboration with DSRC to Enhance App Services.

7th September 2024

“Robust, Scalable, and Efficient”

Optifarm is excited to announce its collaboration with DSRC, a leading global IT services provider, to enhance and expand our app services. This collaboration allows us to leverage DSRC's expertise in custom software development and IT consulting, ensuring our app platform is robust, scalable, and efficient.

DSRC brings over 50 years of experience in delivering high-quality, innovative solutions, making them the perfect partner to support Optifarm’s mission to link the possibilities of Artificial Intelligence with the Traditions of Farming. Providing advanced, real-time data analytics for the agricultural sector. Together, we aim to push the boundaries of farm management for optimal operations and validation of animal welfare, while ensuring seamless integration and superior user experience.

Dan Summers, Technical Lead, commented, "Collaborating with DSRC enables us to integrate advanced functionalities into our app, enhancing the overall user experience and driving greater value for our clients. This collaboration is a significant step forward in our journey to delivering actionable recommendations with cutting-edge AI-driven insights."

Stay tuned for more updates as we continue to innovate and drive agricultural efficiency through technology.

About DSRC:

DSRC is a full-service IT applications provider with a focus on building custom software solutions for startups and large corporations globally. With a commitment to quality and customer satisfaction, DSRC stands out for its innovation, professionalism, and collaborative approach.
